INTERVIEW SUMMARY

To: Mark Spencer, Team Leader
Biotech-Chemical Library Reference Desk
Systems Branch
BOX SEQUENCE
U.S. Patent and Trademark Office
Washington, D.C. 20231

A 7 page document, an excerpt of the sequence listing for the above-identified application, was attached to the Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures dated May 7, 2002 Confirmation #3946. This document reflected a replacement of the current filing date in field <141> from August 15, 2001 to February 22, 2002. This replacement was an error on the part of the US Patent and Trademark Office, and does not reflect the correct current filing date of the above identified application.

Accordingly, Applicant's Counsel spoke with Mr. Spencer, the Team Leader of the Biotech-Chemical Library Reference Desk, who affirmed that this was an obvious mistake done by the U.S.

Message:

I would like to state again that the
filing date on the sequence listing report
has no affect on the application prosecution.
